Professional Experience

Growth Marketing Automation Specialist & Digital Solutions Developer

Freelance 2017–Present

- Increased qualified leads by 120% via advanced WhatsApp API and retargeting automations for clients regionally and worldwide.
- Engineered multi-account CRM system, reducing deal response time by 40% and supporting $150k in quarterly contracts for Ibtikar.

- Launched AI-powered onboarding and chatbot tools, raising customer engagement and conversion rates by up to 3x.
- Built & sold digital business playbooks, workbooks, and marketing systems to international clients.

Digital Marketing Specialist & Data Analyst SEO Agency 2015–2017

- Developed SEO strategies that delivered a 20% increase in organic site traffic.
- Managed paid advertising across Google Ads and Facebook, optimizing campaigns for a 15% lower CAC.
- Produced analytics dashboards driving actionable decisions for marketing teams.

Senior Sales Representative Englander & Yanssen 2014–2015

- Outperformed sales targets by 18%+ each quarter and built lasting B2B relationships within institutional sectors.
- Developed direct selling strategies and trained sales teams in digital outreach best practices.

Key Achievements & Projects

- Built and implemented a customizable WhatsApp CRM adopted in 3 countries for 20+ sales teams.
- Created and managed the CLARA database (400,000+ records) for legally compliant re-targeting campaigns.
- Developed Dokhlak app backend—powering dynamic data for 35,000+ parking locations in KSA.
- Authored and sold digital business strategy guides distributed across five countries.
- Enabled full booking within 72 hours for startup clients via automated WhatsApp campaign flows.
